To persons not adepts in figures, these Tables Will be found invaluable, and even to those who are rapid and accurate in calculation, but who, for want of time, are compelled to hurry over their work, they will furnish a test of the correctness of their calculations. In offering the Revised Edition, the Author desires to express his acknowledgment to Lumbermen and others, who so liberally and extensively patronized his former edition, and begs to as sure them that the present volume will be found in all respects complete for the purpose for which it is designed.
