Size: 7.51 Mb

Excerpt from How to Frame a House, or House and Roof Framing In placing the Seventh Edition of this now standard treatise before those interested in building construction, I do so satisfied that it will merit the commendation bestowed on the previous issues. The matter, both in text and cuts, is the most accurate obtainable from the best and latest practical experience and can be followed with confidence, either in estimating or executing practical work. I beg to thank the editors and publishers of the journals Architecture and Building (formerly Architects' and Builders' Magazine), Building Age (formerly Carpentry and Building), Carpenter, and others for permission to reproduce many of my articles contained herein; also the architects, builders, carpenters, engineers and others with whom I have been associated, and who have helped me in accumulating the information embodied herein. Trusting that the book may prove valuable and profitable to those who purchase and use it, the author remains their obedient servant. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
