Excerpt from International Library of Technology, a Series of Textbooks for Persons Engaged in the Engineering Professions and Trades or for Those Who Desire Information Concerning Them: Fully Illustrated and Containing Numerous Practical Examples and Their Solutions; Packing-House Industries, Manufacture of Leather, Manufacture of Soap The International Library of Technology is the outgrowth of a large and increasing demand that has arisen for the Reference Libraries of the International Correspondence Schools on the part of those who are not students of the Schools. As the volumes composing this Library are all printed from the same plates used in printing the Reference Libraries above mentioned, a few words are necessary regarding the scope and purpose of the instruction imparted to the students of - and the class of students taught by these Schools, in order to afford a clear understanding of their salient and unique features.
