Excerpt from Official Maple Flooring Book: Containing Concise and Authentic Information for Architects Builders Concerning the Characteristics and Uses of Maple, Beech and Birch Flooring

A few of the many buildings in all sections of the country in which flooring of Association manufacture is in use, are shown in these pages and serve to indicate the high regard in which our product is held by architects and builders everywhere. Grateful acknowledgment for the material used in the compilation of this book is made to numerous authorities, among them the many individual manufacturers of flooring, whose courage, persistence and devotion to the principle of doing things better have resulted in the development of an article superior to all other lumber products.

About the Publisher

Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com
This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
